

Safe Church Coordinator Training

Job-Skills Training for the People Who Make Your Program Work

Your Coordinators Are Essential. Are They Equipped?

Every church depends on its Safe Church Coordinator to execute its child protection program across its ministries. They manage background checks, track training compliance, enforce policies, handle sensitive disclosures, and prepare audit data.

Yet most SCCs receive no formal training for the role.

The result? Inconsistent processes across ministries. Compliance gaps surface at audit time. Frustrated coordinators who feel unsupported. And preventable risk.

A Course Built from 20 Years of Working with Churches

Compass has partnered with churches since 2007. In that time, we've learned what separates high-performing child and youth safety programs from those that struggle: the effectiveness of the Safe Church Coordinator.

That's why we created the Safe Church Coordinator Training, the only online training program designed specifically to equip your SCCs with the knowledge, skills, and best practices they need to succeed in their role and strengthen your program from the ground up.

This is not awareness training. It is job training.

Each lesson is practical, scenario-based, and grounded in real-world best practices drawn from nearly two decades of compliance management, training delivery, and audit preparation alongside our church partners.

for

Churches

Six Comprehensive Modules

- | | | |
|----------|-------------------------------------|---|
| 1 | Roles & Responsibilities | Understand the SCC role within the church. Learn how to lead compliance at your church, build a team, and serve as the critical link between your community and your church's ministries. |
| 2 | Reporting Abuse | Know exactly what to do when someone discloses suspected abuse. Practice the dual-reporting process, learn what to say (and what not to say), and build confidence to handle the most sensitive situations. |
| 3 | Policies & Procedures | Master the policies that keep environments safe; boundaries, supervision ratios, digital safety, transportation, codes of conduct, and learn how to communicate and enforce them with compassion. |
| 4 | Applicant Screening | Walk through the complete screening process for volunteers and employees: interviews, ID verification, reference checks, background checks, interpreting results, and handling disqualifications. |
| 5 | Training Programs | Understand the three training programs (adults, children, parents), your tracking responsibilities for each, and how to manage opt-outs, records, and audit submissions. |
| 6 | Managing Compliance | Put it all together with hands-on training in compliance reporting tools, monthly monitoring, expiration tracking, and communication strategies that drive 90–99% compliance rates. |

Why Church Leaders Choose This Course

Without SCC Training

- X Coordinators learn by trial and error
- X Inconsistent processes across ministries
- X Compliance gaps emerge at audit time
- X High coordinator turnover and burnout
- X Preventable risk to children and church

With SCC Training

- ✓ Coordinators are confident from day one
- ✓ Standardized best practices
- ✓ Insurance audit-ready compliance
- ✓ Supported coordinators stay longer
- ✓ Stronger protection for everyone

When your coordinators know what to do and how to do it, compliance stops being a burden and becomes part of your ministry.

Protect Every Child. Protect Your Church.™
